

## ET2210EUKS

### Intuitive Multimedia Enjoyment

- Ultra-Slim Design
- SonicMaster Optimization
- Life-like Surround Sound with DTS

### Centerpiece at Home

All-in-One PC ET2210 Series, available in 21.5" large screen sizes, suits your needs perfectly. From its elegant design with great curves all around and advanced features to the easy- and fun-to-use optional multi-touch screen, ET2210 Series will become the centerpiece of your family's entertainment. Plus, the elegant pedestal design provides effortless tilt adjustment and superb stability.

### Indulgence in Stunning Visual

#### Full HD Screen

The 21.5" 16:9 Full HD LED screen of the ET2210 delivers more details of the high definition content ; brings you more pleasure while playing games or watching movies. Its super-sharp colors enhance your high-definition entertainment, graphics-intensive creative tasks, productivity applications, gaming adventures and Internet surfing. ET2210 Series features HDMI input/output, making it easy and convenient to project video content, or convert for a separate display.

#### Enjoy Entertainment

With pristine HD resolution and stunning clarity, Blu-ray Disc™ technology is the ultimate way to enjoy your entertainment. You can even burn your videos to DVD media to share with your family and friends.

### Indulgence in Rich Usability

#### asus@vibe - an online Entertainment Content Store

asus@vibe is a one-stop entertainment platform that serves as a value-added service. With the asus@vibe platform, users can access or download a wealth of exciting and engaging digital content such as music, videos, games, magazines, e-books, as well as tune into their favorite radio stations and stream live TV anytime and anywhere!

## Indulgence in Life-like Sound

### Life-like Surround Sound with DTS

In addition to the SonicMaster premium sound tech, ET2210 Series also has the DTS Surround Sensation|Ultra-PC™ to achieve superior audio performance. DTS Surround Sensation UltraPC uses advanced processing technology to deliver an incredible surround sound effect. Whether the audio source is stereo or surround, ET2210 creates a virtual surround sound experience for you to be fully immersive. Experience sound that is more immersive, clearer, and more spacious than you may have thought was possible for a PC.

### Hear and Feel the Power of SonicMaster

The ASUS All-in-One PC ET2210 Series features the exclusive SonicMaster Technology for pure audio reproduction. ET2210 Series reproduces richer and more distinct vocals at a wider frequency range, while bass enhancement at the lower end of the audio range delivers richer and deeper bass. So whether you're watching movies or listening to music, it delivers the appropriate aural experience.
